Everything For Beautiful Walls & Fabulous Homes
ABOUT US

Birla White has cemented its place as a market leader in the entire cement category. Our brand boasts an impressive portfolio of white cement-based surface finishing products, that not only enable exquisite interior design, but also protects surfaces from weathering. The brand has constantly reinvented itself, by creating products that fulfil the needs of the ever-changing consumer attitude, and thus effectively becoming a huge part of the construction evolution in India.
Want true tone of colour for your walls?
Go for Birla White WallCare Putty kyunki Putty Whitest Toh Deewarein Brightest!

It is a white cement-based, water-resistant, white wall putty that ensures a strong binding with building surfaces, a smooth finish, extensive coverage, superior refractive index, and paint-friendliness.

WALLCARE PUTTY VARIANTS

Continuing its legacy of being the leader in Innovation and India’s No. 1 WallCare Putty, Birla White has now introduced India’s first ever scented putty in rose, lemon and sandalwood fragrance! The standard whiteness and finish of Birla White WallCare Putty with the mood-freshening rose, a soothing lemon and now a nostalgic sandalwood fragrance is sure to make your home smell beautiful and elevate the mood of a putty applicator. A favourable working environment for the applicator will increase efficiency and ensure quality work.

Rose Putty  Lemon Putty  Sandalwood Putty
FEATURES
- Superior Whiteness
- Enhanced adhesion and durability
- No curing required after application
- True tone of colour
- Water-resistant due to extra HP polymers
- Certified Green Product
- Zero VOCs
- Anti-carbonation property

BENEFITS
- Prevents flaking
- Prevents the growth of algae and fungi
- Resists dampness on painted surface
- Reduces the consumption of paints
- Binds strongly with the base
- Gives true tone of colour
- Accepts any kind of paint or distemper application on it
- Gives surfaces a smooth and glossy finish

APPLICATION
- Interior walls
- Exterior walls
- Wall segments
- Repainting walls

Birla White WallSeal Waterproof Putty is a white cement-based putty with 2x water resistance. It has Active German Silicon Polymers which provide a strong base on a plaster/concrete and mortar wall surface. It provides better protection from seepage. In fact, the Karvy Research findings state that it has the best waterproofing properties.

**PRODUCT HIGHLIGHTS**

- 2x Water Resistance
- Active German Silicone Polymer
- More Whiteness

**GALLERY**
FEATURES
- Contains Active German Silicon Polymers
- Better Whiteness
- Eco-friendly
- Durability and resistance to hairline cracking
- Curing free

BENEFITS
- 2X water resistance
- Provides smooth and glossy finish to the surface
- Brings out true tone of the top coat
- Better Workability

APPLICATION
- Interior Walls
- Exterior Walls

Birla White Bio-Shield putty is India’s first Anti-viral Putty and premium quality white cement-based polymer modified Putty, with Anti-viral & Anti-microbial properties.

It offers a safe & hygienic putty surface along with ultimate whiteness to your walls, in order to enhance the performance of topcoat emulsions, giving your walls a marble-like finish with protection from germs.
FEATURES
- Silver Ion Technology
- Highest Whiteness (94.5 on Hunter Scale)
- No Curing Required
- Anti-bacterial and anti-viral properties
- Certified Green Product

BENEFITS
- Gives a premium, marble-like finish
- Brings out the true tone of colour
- Higher Coverage
- No pre-wetting required
- No curing required
- Accepts any kind of paint application on it
- Prevents corrosion
- Kills 99.9% viruses and bacteria

APPLICATION
- Interior walls
- Exterior walls

Want to give your walls the WHITEST WHITE surface finish?

**Birla White Cement** is the right choice! It is basically White Portland Cement that is manufactured in our units. It’s made by using advanced technology and state-of-the-art manufacturing process, which gives it that superior fineness and whiteness.

**PRODUCT HIGHLIGHTS**

- Smooth Finish
- Top-notch Quality
- Superior Technology
- World-Class Plant

**AVAILABLE SIZES**

- 1Kg
- 5Kg
- 25Kg
- 50Kg
FEATURES
- +89% on the Hunter Whiteness Scale
- High refractive index
- High compressive strength of 60 MPa
- Superior fineness of 370-400 Blaine
- High opacity

BENEFITS
- Depicts true tone of colour
- Less consumption & better dispersion of pigment
- Better coverage
- Imparts brilliant lustre
- Gives freedom to create designs

APPLICATION
- Floors
- Walls
- Others

EVER-WHITE CEMENT WASH

Need an economic White Cement Wash that lasts longer?

Birla White Cement Wash is the answer to all your needs in one packet!

Birla White 'Ever-White Cement Wash' comes with the promise of being extremely durable, lustrous, as well as economical. It is an efficient filler for all hairline cracks and crevices. It is the only cement wash that lasts longer than ordinary White Cement wash/lime wash and provides a far superior finish at applied surface. It gives a 3-year warranty period and can be easily applied using a brush or a spray, making it a hassle-free product for the masons to use.

PRODUCT HIGHLIGHTS

3X HIGHER STRENGTH
UNMATCHED WHiteness
NO CRACKING NO FLAKING
3 YEAR WARRANTY*

GALLERY
FEATURES
• Fills minor pores/pin holes, hairline cracks and crevices
• Superior White Finish
• Smooth Matt Finish
• Application on damped/moist surfaces

BENEFITS
• Additional strength to the surface
• Does not peel, flake or gets wash away
• Durability up to 3 years

APPLICATION
• New cement plaster wall (Interior or Exterior)
• RCC/concrete surfaces

Birla White Levelplast is a white cement-based, water-resistant polymer modified curing-free ready-mix plaster. It gives your walls the best in class compressive strength and tensile adhesion. It is an eco-friendly product and is certified for anti-carbonation properties. It is ideal for application on interior and exterior surfaces.

PRODUCT HIGHLIGHTS

- High Water Resistant
- Best Compressive Strength
- Hacking Free
- Curing Free

GALLERY
FEATURES
- Only Curing Free Ready-mix plaster
- High tensile strength
- High adhesion strength
- Higher compressive strength
- Polymer modified product
- Low capillary absorption
- Water-resistant

BENEFITS
- Saves labour and time
- Avoid Cracking of Walls
- Prevents growth of fungus
- No water curing required
- Avoid Water Seepage

APPLICATION
- Concrete Blocks
- Mivan
- AAC Blocks
- Red Bricks*

*(Only up to recommended thickness i.e. 0.025 meter, in two layers.)*

GRC

Architectural components have a way of sprucing up your space. Get them in with Birla White GRC. Birla White GRC is basically glass-fibre reinforced concrete, which is a versatile and lightweight moulding material.

It has been developed so you can construct complex yet strong wall profiles. Along with supporting architecture ideas, it also helps with exquisite designs. This makes it the preferred choice for designers as well. Useful for restoration, renovation and new construction, Birla White GRC offers a wide range of possibilities in terms of shapes, forms and textures.

PRODUCT HIGHLIGHTS

- TOUGH & DURABLE
- NON-COMBUSTIBLE
- NO HEALTH RISKS
- QUICK INSTALLATION

GALLERY
FEATURES
- 75% lighter than ordinary concrete
- High adaptability
- High durability
- No Health Risk
- Non-combustible

BENEFITS
- Resists high impact
- Can be cut without chipping
- Can be installed quickly
- Is easily fixable
- No external reinforcement required

APPLICATION
- Textured or Curved Bands
- Ornamental and Architectural Components (Arches, Brackets, Zharokhas, Partitions, Domes, etc.)
- Decorative Roofing

ORNAMENTAL AND ARCHITECTURAL
EXTOCARE PRIMER

Want to give life-long protection to your walls?

Give them the power of Birla White Extocare, a white cement-based polymer-modified exterior wall primer that provides 7x more adhesion than any acrylic wall primer. This prevents peeling of the topcoat and keeps the beauty of your walls intact for years to come. Along with protection, Birla White Extocare offers the best opacity and whiteness that bring out the true tone of paint.

7x MORE ADHESION*
*Certified by NABL accredited laboratory

PRODUCT HIGHLIGHTS

- HIGHEST WHITENESS ON HUNTER SCALE (94.5%)
- PREVENTS PEELING OF PAINT
- COMPATIBLE WITH ALL EXTERIOR PAINTS

GALLERY
**FEATURES**
- Best in class opacity and whiteness
- Possesses anti-carbonation property
- Provides 7x* more adhesion to top coat than other primers
- No VOC (Volatile Organic Compounds)
- Anti-alkali
- Eco-Friendly
- Highly Durable

**BENEFITS**
- Protects TCC structure from corrosion
- Prevents peeling of topcoat
- Easy to apply
- Beneficial for application on high rise
- Can be applied on damp/moist surfaces
- Resists UV weathering effect

**APPLICATION**
- Exterior walls
- RCC structures/plaster surfaces

Birla White Zycop is specially formulated gypsum plaster for internal plastering. It can be applied as a replacement of traditional cement. It can also be used as levelling material. Zycop’s additives give it great compressive strength while being light weight.

It does not require water curing which makes the surface ready for painting in 72 hours.

PRODUCT HIGHLIGHTS

- No Water Curing
- Shrinkage Crack Resistant
- Easy to Apply
- Economical & Value for Money

GALLERY
**FEATURES**
- Green building product
- Higher Coverage & Economical
- Can be applied in thicker coat 0.008-0.01 meter thickness
- No curing
- Shrinkage crack resistant

**BENEFITS**
- Easy to apply just add water
- Achieve perfect corners and level finish on your walls with minimal effort
- Better acoustic & insulation properties than cement sand plaster
- No curing is required and surface is ready within 72 hours for painting
